BASIC PACKAGE

This package is designed to provide the essentials for building and maintaining salary structures

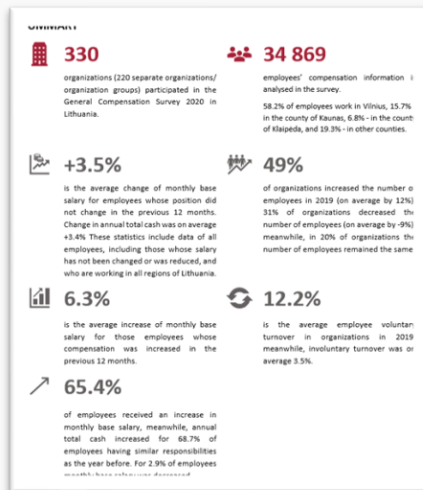

I. SALARY BENCHMARK WITH THE MARKET

Comparison of the organization's compensation level with the labor market in the form of trendlines. **Job evaluation is included!**

II. KEY MARKET TRENDS

The main findings of the research, that show market dynamics and help to plan salary budgets, benefits, etc.

III. CONSULTATIONS AND EVENTS

Support from consultants and invitation to our events.

BASIC PACKAGE is *free of charge* and can be upgraded at any point within one calendar year

DATA SUBMISSION - PARTICIPATION

In order to get the Basic Package, each organization has to participate by submitting data via a secure channel.

Contact us, we will provide the data form and guide you through the process. Once submitted you will receive the results in one business day.

2 hours

is the average time it takes to participate in these studies that provide you with market salary database and other essential details

Individual

level of salary analysis is the most accurate way to compare, our tools allow all three levels of benchmarking - organization, function, individual

WHY US?

INTERNATIONAL METHODOLOGY MADE FOR BALTICS

We acknowledge market differences between countries, small market specifics – our internationally recognized methodology is made specifically for Baltic region and requires no training to use.

AFFORDABLE SERVICES

Our prices are also oriented to the local markets. This and the free participation option allow us to collect rich data that is reflective of the real market, not just the top paying companies.

BIGGEST SAMPLE AND RENEWED DATABASE

Big and diverse sample provides detailed insights. The salary database for specific sectors in 2021.

TIMELY SUPPORT

Sometimes data may be tricky to interpret, quick ad-hoc calculations and special analysis might be needed - we are there to support through the year.

WHO WE ARE

We are the main Total Remuneration partners in the Baltics, working with localized market research, specializing in sectors.

We also work with the leading remuneration consulting agency in the world – **Mercer**, conducting their studies and providing the global perspective.
